

Table of Contents

<i>Physiological principles of intramedullary fixation</i>	9
Vladimir Smrkolj	
<i>Historical overview and biomechanical principles of intramedullary nailing</i>	13
Iztok A. Pilih, Andrej Čretnik	
<i>New horizons in fracture treatment</i>	19
Roman Košir, Andrej Čretnik	
<i>Intramedullary nailing of proximal femoral fractures</i>	25
Jože Ferk, Aleksander Frank	
<i>Femoral shaft fractures fixation with locking anterograde intramedullary nails</i>	37
Aleksander Frank, Jože Ferk	
<i>Fixation of femoral fractures with retrograde intramedullary nails</i>	47
Alojz Kranjc, Andrej Kelc	
<i>Intramedullary nailing of tibial fractures</i>	53
Andrej Kelc, Alojz Krajnc	
<i>Intramedullary nailing of humeral fractures</i>	61
Žiga Horvat, Dean Pandurovič	
<i>Ways and sense of intramedullary fixation of fractures in children</i>	71
Dean Pandurovič, Žiga Horvat	
<i>Treatment of intramedullary nailing complications</i>	79
Andrej Čretnik, Aleksander Frank	
<i>Controversies in intramedullary nailing</i>	87
Andrej Čretnik, Jože Ferk
